

ST STANISLAUS' COLLEGE OLD BOYS' ASSOCIATION

Outcome of Annual General Meeting SSCOBA

The deferred AGM of the Old Boys' Association was held at the College on 16 February 2019.

The meeting was successful informing members of the updated record of ex-students and alumni and the need to maintain not only a comprehensive record of ex-students but also the need to maintain accurate data of financial members.

A database has been established which can filter class listings, alumni by region and other select criteria. There are now in excess of 7,200 ex-students. However, there is a lot of information missing and arrangements were made for particular ex-students to collect missing data for specific class groups. The particular ex-students and the class groups are as follows:

2001 - Jack English

1993 - Liam O'Hara

1983 - Brad McCormick

1973 - John Hadfield

1958 - Kevin Callinan

1955-57 - Chris Worthington

1949 to 1971 - Michael Bracks based on attendance at recent annual reunions in Queensland, etc.

If you are interested in collecting data on a specific class/ group please contact Kevin Callinan by telephone on 0412 488 742 or email kevincallinan@hotmail.com for further information and to discuss arrangements.

Considerable discussion took place on the means of collecting this information. It was evident that whilst some old boys' have email accounts, many have not made them available. It was also made clear that younger ex-students maintain contact amongst themselves using Social Media. Various methods may be used to collect the missing information.

The meeting also considered a number of suggestions regarding financial membership of the OBA. A subcommittee has been formed and tasked with developing proposals to be voted upon at the Triennial Reunion.
